

EVERYDAY RESORT

Where Every Day Feels Like a Vacation

OUR STORY

Remember that feeling?

The one where you wake up naturally—no alarm clock screaming at you. Where your biggest decision is whether to have morning coffee by the water or after a quick swim. Where the kids are tan, tired, and actually talking to each other instead of staring at screens. Where your shoulders finally drop from your ears, and you realize you haven't checked work email in three days.

That's not vacation. That's supposed to be life.

We're Logan and Marlise, and we started Everyday Resort because we were tired of waiting for "someday." Someday we'll buy that lake property. Someday we'll spend more weekends outdoors. Someday we'll create those memories our kids will tell their kids about.

Then we realized: What if someday could be every day?

We found this beautiful piece of land near Makwa Lake and Upper Makwa, and we saw something more than a campground. We saw a place where families could put down seasonal roots. Where you don't just visit the lake—you become part of it. Where May Long weekend to Labor Day isn't a countdown to "back to real life," but a celebration of the life you actually want to live.

Everyday Resort isn't about escaping your life. It's about finally living it.

This is your summer home. Your second family. Your place where the living is easy and the memories are endless.

We only have 20 sites, and 7 are already claimed for 2026. This isn't a massive RV park where you're site #247. Here, we know your name, your kids' names, and how you take your coffee at the Saturday morning potluck.

Because everyday should feel this good.

WELCOME TO YOUR SUMMER HOME
